Re: Completion of Requirements for Notice of Non-Compliance, Quality Building Stone, Martin-Brown/Wilford #2 Quarry, S/007/037, Carbon County, Utah

Dear Mr. Hansen:

This letter is to notify you that the requirements of the Notice of Non-Compliance issued September 17, 2002, have been completed. On November 20, 2002, the Division received a Notice of Intention to Commence Small Mining Operations at this site, and although the Notice of Intention cannot be approved at this time, filing the notice fulfills the requirements of the Notice of Non-Compliance.

The Division received comments from the Division of State History on November 20, 2002. Their letter said there are several historic mines in the area that could be affected by your operations, and they recommended a cultural resource survey of the project area. We understand you hired a consultant to complete a cultural resources survey of the quarry area, and we would like to receive a copy of the survey report. If the report contains information about significant cultural resource sites, we will hold it confidential. With this information, we can better determine how to proceed with permitting this site, and we can work with the Division of State History and the Bureau of Land Management to decide whether any mitigation or protective measures are necessary.

Thank you for your cooperation. Please call me at 801-538-5286 or Paul Baker at 801-538-5261 if you have any questions.

Sincerely,

D. Wayne Hedberg  
Minerals Permit Supervisor
